

Independent Living Resource Center San Francisco presents

Active Mobility Device Demonstrations by Kinova USA

JACO Robotic Arm

Wijit

Join us March 27th at 1:30pm at Independent Living Resource Center San Francisco as we invite Sacramento-based assistive technology vendor Kinova USA to demonstrate its latest active mobility devices for manual and electric wheelchair users, including the new Rota active mobility device, JACO robotic arm, and Wijit Lever Driving and Breaking System. Don't miss out!

When: Thursday, March 27, 2014 at 1:30pm

Where: Independent Living Resource Center San Francisco
649 Mission Street, 3rd Floor

Call to reserve your spot at 415-543-6222 or go online at www.ilrcsf.org

To request alternative formats or accommodations related to disability, contact Derek Zarda at derek@ilrcsf.org or **415-543-6222** before 3/25.

NOTE: ILRC SF is wheelchair accessible and provides reasonable accommodations upon advanced request. In order to be fully accessible to all people with disabilities, ours is a scent-free office. When visiting ILRC SF, please do not wear any scented products, including perfumes, aftershave, hairspray, etc.
